

PROFILE

I design engaging, delightful digital products that serve both user needs and business goals. As a Senior Product Designer in Backbase Services I work directly with clients to turn business requirements into intuitive banking experiences — leveraging out-of-the-box patterns, a solid design system and best UX practices. My background in visual design, advertising and communication keeps me attentive to how a brand unfolds across every interface. I hold an NN/g UX Certification alongside credentials in product design, business analysis, product management and interaction.

CURRENT

Senior Product Designer

In the Services department I implement digital banking solutions for financial institutions, transforming business requirements into intuitive retail and business banking experiences. Working directly with clients, I leverage the Backbase design system and products to build custom solutions while ensuring consistency and UX best practices.

Jüssi

May – Sep 2021
São Paulo

Product Design Lead

Led the product design practice from discovery to delivery. Partnered with product and engineering to align design strategy with business goals, guiding the team’s craft through UX research, prototyping, usability testing and interface design while maintaining high standards of quality and impact.
